

True Colours Lucy and Russ

Don't stop Believing

Da, da , da da

Solo Allan

Just a small town girl living in a lonely world,
She took the midnight train going anywhere

Solo Bernie

Just a city boy, born and raised in South Detroit
He took the midnight train going anywhere

All

Strangers meeting, up and down the boulevard
Their shadows searching in the night
Street light people, living just to find emotion
Hiding somewhere in the night
Don't stop believing, hold on to that feeling
Street light people oh oh oh
Don't stop.

The Boys are Back / Bad

Take it back to the place where you know it all began
We can be anything we wanna be
You can tell by the noise that we are back again
Together making history
We're the best, no doubt, doin' it like we used to do
This is our town and I'm telling you oh
We're bad, we're bad, you know it
You know we're bad we're bad, you know it
[Bad , bad, really really bad]
You know we're bad we're bad, you know it
[Bad , bad, really really bad]

And the whole world has to answer right now just to tell you once again. Who's bad.

Keep coming with it right every single time
Undefeated here in our house
We can rock we can shock anytime we like
And tonight we're going all out
We're the best, no doubt, doin' it like we used to do
This is our town and I'm telling you oh
We're bad, we're bad, you know it
You know we're bad we're bad, you know it
[Bad , bad, really really bad]
You know we're bad we're bad, you know it
[Bad , bad, really really bad]

And the whole world has to answer right now just to tell you once again. Who's bad.

A million dreams

I close my eyes and I can see a world that's waiting up for me, that I call my own.
Through the dark, through the door, through where no-one's been before, but it feels like home.
They can say, they can say it all sounds crazy.
They can say, they can say we've lost our mind
I don't care, I don't care if they call us crazy
We can live in a world that we design.
Cause every night I lie in bed, the brightest colours fill my head.
A million dreams are keeping me awake
A million dreams for the world we're gonna make

Duet Bex and Russ

For the world we're gonna make

Battlefield

Solo Gemma

Don't try to explain your mind I know what's happening here.

One minute it's love and suddenly it's a battlefield

One word turns into a war

Why is it the smallest things that tear us down

My world's nothing when you done

I'm not here without a shield, Can't go back now

Both hands tied behind my back with nothing

Oh no, these times when we climb so fast to fall again.

Why we gotta fall for it now. I never meant to start a war

You know I never wanna hurt you

Don't even know what we're fighting for

Why does love always feel like a [All - battlefield,
battlefield , battlefield]

Why does love always feel like a [All- battlefield,
battlefield , battlefield]

Why does love always feel like a [All- battlefield,
battlefield , battlefield]

Get your armour , get your armour

Battlefield Battlefield

Pre recorded dialogue

See you again

**Gradual build group Ellie, Darren, Julie, Dave,
Carlene and Brendan**

It's been a long day without you my friend
And we'll tell you all about it if we see you again
We've come a long way from where we began
Oh, we'll tell you all about it, if we see you again
Woh, woh ooo
If we see you again, if we see you again

True Colours

Ha ha ha ah ah

Solo Sara T

You with the sad eyes, don't be discouraged
Oh I realise, it's hard to take courage.
In a world full of people
You can lose sight of it all
And the darkness still inside you makes you
Feel so small

All

And I see your true colours shining through
I see your true colours
That's why I love you , so don't be afraid to let them
show
Your true colours, true colours
Are beautiful like a rainbow
And I see your true colours shining through
I see your true colours
That's why I love you , so don't be afraid afraid to let
them show
Your true colours, true colours
Are beautiful like a rainbow

Duet Bex and Russ

And we saw your true colours shining through

All

So let your true colours shine
